DCT28 Traceable Butterfly Valve

DCT28 Traceable Butterfly Valves are designed to provide reliable shut-off and flow control in water, wastewater, and industrial pipeline systems. With traceability features, they ensure full compliance with quality and safety standards, making them suitable for regulated applications.

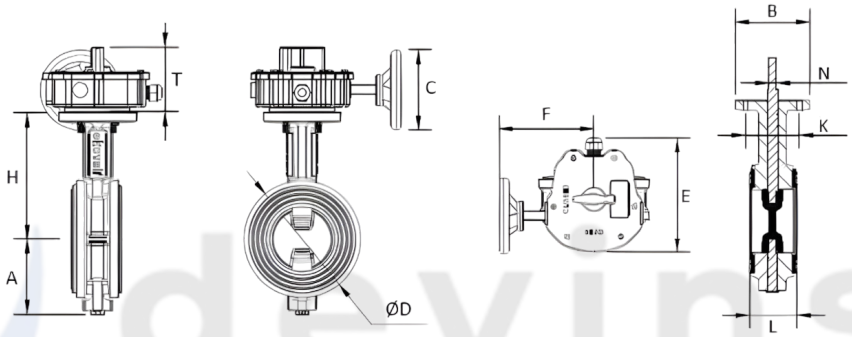

Constructed from durable, corrosion-resistant materials, DCT28 valves offer long service life, tight sealing, and minimal maintenance. Compact and easy to install, they are ideal for projects requiring dependable operation and certified traceability.

Areas of Application

Water and wastewater systems
Chemical industry
Food and beverage industry
Pharmaceutical production
Oil and gas pipelines
HVAC systems

Optional

175 PSI
300 PSI

Material Specifications

Nu	Part Name	Material
1	Body	EN-GJS-400-15 (GGG40)
2	Gasket	EPDM

Dimensions
