DCT24 Wet Alarm Valve

DCT24 Wet Alarm Valves are designed for use in wet-pipe fire sprinkler systems, providing reliable water flow detection and alarm activation during a fire event. They ensure timely notification and system response to protect life and property.

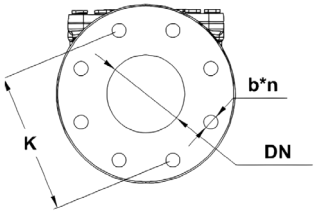

Constructed from durable, corrosion-resistant materials, DCT24 valves offer long service life, tight sealing, and minimal maintenance. Easy to install and operate, they are ideal for applications requiring dependable fire protection and early warning capabilities.

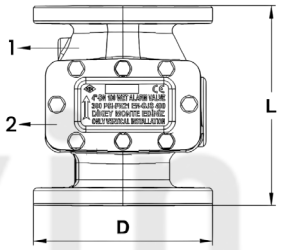

Areas of Application

Water and wastewater systems
Chemical industry
Food and beverage industry
Pharmaceutical production
Oil and gas pipelines
HVAC systems

Optional

230 PSI
300 PSI

Material Specifications

Nu	Part Name	Material
1	Body	EN-GJS-400-15 (GGG40)
2	Bonnet	EN-GJS-400-15 (GGG40)
